

The board of managers of the Y. M. C. A. of this place, we are much pleased to see, have commenced a good work in the matter of protesting against a modification of the Ohio liquor laws. Let every good citizen append his or her name to the following appeal to the legislature, fill it up as rapidly as possible, and forward to either of our members of that body. The board of managers acted in this laudable matter on last Monday evening, and let us sustain them with a unanimity becoming the importance of the question involved.

To the Honorable Senators and Representatives of the sixtieth general assembly of the state of Ohio, now in session at Columbus:

The undersigned citizens of Stark county, Ohio, being informed that a bill is now pending to require notice to be given to liquor dealers before damages can be recovered for injuries sustained, would respectfully and earnestly protest against a repeal or modification of the laws now in force providing against the evils resulting from the sale of intoxicating liquors, and especially against the principles of liability for damages, as it now stands in the laws of 1870.

Much discussion is going on all the time as to the policy of adopting free trade, or having a tariff, or tax on all foreign imports. As to taxing many articles which are brought to this country from elsewhere, for the purpose of 'protecting our home' manufacturers we leave for protectionists or tariffites and free traders to discuss, but on one article we are emphatically for free trade, and that is printing types. There is said to be a spirit of monopoly among the type foundries in the United States, and it looks very much that way. Forty years ago we could and did buy long primer for 34 cents a pound—now it is 56—and during war times it was 62 cents. That excellent weekly, Rowell's News, paper Reporter, has been looking into this matter, and publishing facts which should open the eyes of every man. It is ascertained that Scotch made types can be bought from 30 to 40 per cent cheaper than the same article can be had in the U. States. And the last number of Rowell's Reporter further elucidates this matter by giving the prices of types in the U. S. and Canada—just over the border.

Size of type.	Toronto.	N. Y.	Diff.
Nonpareil, per lb.	62c.	76c.	14c.
Minion	50	68	18
Brevier	44	64	20
Burgundy	40	59	19
Long primer	36	56	20
Small pica	34	54	20

At these prices our type foundries must be making money, or their brethren in Canada are losing it. Here is a difference of at least 30 to 40 per cent in favor of United States type dealers and those in Canada, and this difference is at the expense of the printer. Our Canada brethren pay the average price of 44 cents per lb for plain type, while we have to pay 66 cents per lb for the same article. Certainly this is unjust and unfair. Whether there is tax on imported types or not we don't pretend to know, but the probabilities there is a pretty round tariff upon them, so that if an American printer would with his hard earned \$100 wish to purchase nearly 300 lbs of long primer over in Canada, for which on our side of the line he would be required to pay \$168, and presume to bring his material into the United States, he would be liable to arrest and punishment as a smuggler. This may be law, but it is a miserable injustice. It may be 'protection' to some thirty or forty, more or less, type foundries in our country, but it is taxation and tyranny toward some ten thousand or more printing offices in the country. We don't say but that tariff in some respects, and on some articles may be tolerated for the sake of what is called protection, but when it comes to taxing our intelligence at the rates the above figures indicate, as before remarked, we go for free trade, let it be called reformed republicanism or even democracy, if you choose.

There are unmistakable indications that the groggers of Ohio are frightened. Like all other culprits, they are afraid of even the little law we have against them, and are much more afraid of justice. For this reason they are beseeching the legislature with petitions, and calling on members of that body for a modification of the laws on the liquor question. Bills have been introduced in both houses by democrats, having for their object the repeal or softening down of that law which makes property responsible for damage done by the use of liquor, when the seller is some poor vagabond. Gentlemen legislators, your constituents are looking after your doings in this matter, and we hope you, or at least a majority of you will not be so scared by the frown of lager beer or the bead on a whisky bottle, as to undo the good work your predecessors have perfected, in order to protect the people from the ravages of alcohol. You cannot but know that these laws were enacted for the protection of your constituents, whether consisting of brothers, sons, neighbors and friends—and especially for the safety of the thousands of helpless wives and children, who should look to you for safety from the ravages of this demon. It is one of the great aims of law to protect the helpless—or it should be—and not let it be perverted to the advantage of mischief doers, who care nothing for human safety or happiness so their rapacity is satiated with the greed of gain. For many long years this same party has pretended to boast that all legislation which inures to the safety and benefit of the people as against them, tends to favor them. They pretend to chuckle over the idea of a Maine law in Ohio, as it will help them so much—they can sell so much more liquor and of course become richer at the expense of all the rest of the community. But the little touch of Maine law which we have in Ohio—and it is comparatively a small affair—causes them to squirm, and ask to have these statutes repealed. All over the state parties are after them, and many of these groggers have been forced to pay their hundreds of dollars fines, while many of their dens have been crushed out of existence. These significant facts are staring them in the face, and terror seizes on them. Read an account of the decision of the supreme court of the state in a liquor case which appears on first page of today's paper. The peddler of liquid fire in that case found no consolation at the hands of that tribunal, and others can see their doom there illustrated. What shall we do to be saved? Is their cry now, when they see the vigorous arm of justice hurling its significant shafts after them. If they quake when the laws are comparatively mild, what will they do when prohibition stares them in the face? And that is coming as surely as the day of judgment.

Notice is given by R. D. Harrison, chairman of the republican state central committee, that a meeting of that body will be held in the senate chamber, at Columbus, on Wednesday evening next, the 14th inst. The object of this meeting is to decide on a time for holding the next state convention, and attending to such other business as may come up for action.

It is several months before the proper time for nominating a candidate for congress in this district, yet the friends of prominent men have commenced urging their claims in these columns—two having already expressed themselves and a third comes in to day for a hearing. By the new apportionment bill just adopted by congress, Ohio is entitled to twenty members. If the legislature changes the districts materially it is very uncertain into whose company, politically, Stark county may fall. And the possibility is, there may be a general overhauling of districts, though nobody seems to know, or if any do know they don't report.

If the foreign news is not altogether sensational it is at least ominous. The committee of arbitration, now in convention at Geneva, Switzerland, who have charge of adjusting the Alabama claims between the United States and England, have been engaged for some time in considering these complicated questions. News from that body and more particularly from the British people, as expressed through their leading papers, is not of a propitious character to produce harmony or unity of feeling between the two countries Saturday's and Monday's papers give threatening accounts of the hostility of the British nation toward the terms of the treaty. It is hoped wiser counsels may prevail, and that an amicable settlement will yet bless both nations.

The late liquor murder in this place has begun to have some effect, as it will be seen in to day's issue there is an ordinance, just passed by our city council requiring all liquor concerns to be closed at 9 o'clock in the evening. This is a good beginning, and we hope our executive officers will see that the law is strictly carried out. We repeat, it is a good beginning, and if our municipal authorities can close the grog shops at 9 p. m., they can go a step further and shut them up at 8 p. m. and so on, till they are altogether stopped. And the council need not be surprised, to see petitions coming in upon them, asking them to shut up the liquor trade by drinks and retail twenty-four hours every day.

Mr. Editor—I notice in your column the name of A. C. Wales as a probable candidate for congress and also the name of Geo. Marsh, both of this county.

Should the district remain in its present shape the contest will be between Stark and Jefferson, Miller of

which have had the member of congress during the present formation of the district.

Jefferson has claims for the distinction of furnishing a congressman, and for one I am disposed to regard them. Hon. W. R. Allison, editor of the Western Herald, who always does yeoman service, ought not to be overlooked. His right to a nomination has been deferred, until it should now be recognized.

Please bring him before the people as a candidate so far as this note can do so.

COUNCIL PROCEEDINGS.

Wednesday Ev'g, Jan. 31, 1872.

Regular Session—Adam Mong presiding.

Roll Call—Members present, Messrs. Mong, Oberlin, Kirkland, Crone, Bullinger and Willenborg.

Minutes read and approved.

The street commissioner submitted his regular report of work done on streets and alleys for the week ending January 27th, to be \$40.88; and amount of poll tax received \$38.50.

The judiciary committee reported an ordinance directing all places where intoxicating liquors are sold, to be closed at nine o'clock in the evening, and to prevent the sale of such liquors after that hour, which ordinance was passed.

An ordinance to procure good order and prohibit certain sports and games named therein from being played on any street, alley or public ground within the city of Massillon, was also reported by the judiciary committee and received its first reading.

Messrs. Russell and Kirkland, to whom was referred the settlement of the claims of Wm. Crooks against the city of Massillon for gas lamp posts and gas lamp contract reported that they had effected a settlement of said account.

Peter Korman presented a bill of \$24 for repairing plows which was referred to Adam Mong.

An order of Wm H. Crooks for \$20, in favor of Joe Bailey, also, one in favor of the Massillon Gas Light Co. for \$275 was received and accepted.

The Park Commissioners presented a bill of \$11.55 for lumber and hinges for park fence, which was accepted.

On motion of Mr Willenborg the city clerk was instructed to draw a note in favor of the Park Commissioners for \$680.88, payable in thirty days in settlement of all bills on account of Park received to date.

The following amounts were allowed and orders drawn for the same.

W Crooks, ac of gas post contract,	\$308.63
Massillon Water Co. water rent,	8.33
T H Seaman, on salary,	50.00
Ed Butler, order of J Hewes,	30.00
W Lipps, care of engine house,	5.00

There being no further business the council adjourned.

Accounts from England regarding the dissatisfaction with the treaty of Washington produce no excitement whatever in executive and congressional circles, nor is it considered that any complications between the two countries can result from the agitation of the question in England, and it is believed the matter at issue will be settled in accordance with the terms of the treaty. None of the members of the two committees on foreign affairs have heard of any dissatisfaction with the treaty, apart from the London press, nor has their attention been called to the subject by either the president or secretary of state, and it is equally certain that they and other members of congress will stand by the treaty as it is without yielding to any demand which will affect its purposes; and such is also said to be the determination of those connected with the executive department, whose right it was to present this American statement of the case with as much earnestness as was exercised by the British themselves.

SENATE.

WASHINGTON, Jan. 30.—Mr. Casserly presented a memorial of the California soldiers for modification of bounty laws.

On motion Mr. Cole presented the House bill appropriating \$50,000 for expenses of the Japanese Embassy, which was passed.

Bills were introduced to regulate the compensation of prize money, and to equalize bounties.

By Mr Stevenson—For the improvement of the falls of the Ohio river, and Louisville canal.

On motion of Mr Cole, the supply for the deficiency in the postoffice department, occasioned by the defection of McCortney, late disbursing clerk, was passed.

On motion of Mr. Pomeroy the bill setting aside the tract of land at the headquarters of the Yellowstone for a public park, was passed.

Mr Cameron said at an early day he would call up a bill for the payment of the French spoliation claims.

On motion of Mr Schurz, the House bill authorizing the construction of a railroad bridge over the Mississippi was taken up.

Mr Davis gave notice that he would call up on Friday his resolution relative to executive disqualifications.

On motion of Mr Kellogg a resolution was adopted directing the postmaster general to send the names of Louisiana claimants for mail services prior to 1861. Also calling upon the secretary of war for information in regard to obstructions in Red river.

Mr Cole, from the committee on appropriations reporting a House bill appropriating \$50,000 for expenses of the embassy—passed.

The following bills were introduced:

Mr Harlan, authorizing the construction of a bridge across the Mississippi river at Clinton, Iowa.

Mr Pomeroy, for the relief of actual settlers upon the Cherokee neutral lands in Kentucky.

He said that he would prefer the amnesty bill without exceptions but as this was impossible at present he would give the present bill a hear.

support, trusting to the generosity of the American people for removal of all disabilities in time. He felt that the restoration of the democratic party to power was necessary to protect the rights of citizens and protect the people from the evils brought upon the country by republican rule. He charged the republican party with having inflicted upon the country an irredeemable and dedicated paper currency, a ruined commerce, a notorious navy and many other evils, and in conclusion denounces Sumner's civil rights amendment as an attempt to degrade the white man to the level of an inferior race.

Mr. Schurz followed with an elaborate speech in favor of universal amnesty. He said he had at first intended to vote for the House bill without amendment, expecting that it would be promptly passed, but the bill having been amended in one particular, it must now go back to the House, and therefore there was no longer any reason for refraining from an attempt to make it apply to all classes laboring under the disabilities of the war.

Mr. Nye replied, and after some discussion Mr. Robertson gave notice that he would ask the senate to sit to-morrow until a vote should be had on the bill.

The senate then adjourned.

Farmers, take your butter and eggs to London's store, Main st, second door east of canal.

Citizens of Massillon and vicinity:

We desire respectfully to call your attention to a few facts; and believing that our city will commend itself to your favorable consideration, we will proceed to explain our plan to effect the object in view.

It is, perhaps, a fact well known to you that during the five years last past, the members of Hart Post G. A. R., of this city, have labored to secure a Lot in our Massillon Cemetery, to be used as a Burial Lot for indigent Soldiers and Sailors who served in the defence of the Union, during the late war. We have, by means of Entertainments of various kinds, succeeded in procuring a suitable Lot, and enclosing it with a very fine Fence, of iron, especially designed for that purpose, at an expense of about six hundred dollars; and when Spring opens, the Lot will be further substantially ornamented, and made ready for the purpose for which it is designed to be used.

This much has been done, through the liberality of our citizens, and now we propose to secure the means to erect a suitable Monument on the Lot. We propose to build it, mainly, of Massillon white and red sandstone—to put it up by our own mechanics—to make it a credit to our City and vicinity; and, finally, to make it a Monument to the PATRIOTISM that preserved our Flag, and maintained our Union unbroken. This is the object we have in view, and we appeal to you to now manifest your appreciation of our purpose, by the same measure of liberality that characterized you during the late war. Now for our plan:

We propose on the evening of WEDNESDAY, FEBRUARY SEVENTH, to produce, in the Opera House, one of those attractive Military R presentations of the Rebellion, entitled *The Old Flag, or the Spy of Newbern*; to put on the piece in the best possible manner, and to give you therefor the full value of the price of admission, and at the same time afford you an opportunity, by your presence, to assist in the erection of what you, and yours, to the latest generation, can point to, as a Monument erected by you, in commemoration of the memory of the "Patriotism that preserved us as a nation."

We ask you, therefore, to not only come to see "The Old Flag" yourself, but to see it that your friends come also. Explain the matter, as we have explained it to you and we think the result will be such as will be creditable to our community.

"THE OLD FLAG, OR THE SPY OF NEWBERN," will be produced in the Opera House during the evenings of February 7th, 8th, 9th and 10th, 1872.

Respectfully,

BY THE COMMITTEE.

The undersigned hereby express their appreciation of the object above set forth, and recommend that our fellow citizens be liberal in their efforts to insure the success of the enterprise.

ONE MILLION OF LIVES SAVED!

It is one of the remarkable facts of this human race, not merely that so many persons are victims of dyspepsia or indigestion, but its willing victims. Now we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the luxuries of life. Far from it. Those who have experienced its torments would scorn such an idea. All dread it, and would gladly dispense with its unpleasant familiarities. There are diseases more acute and painful, and which more frequently prove fatal; but none, the effects of which are more distressing to the body, if there is a wretched being in the world it is.

A CONFIRMED DYSPETIC.

But it is not our intention to discount on the horrors of dyspepsia. To describe them truthfully is simply an impossibility. We are sure that dyspepsia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPEPSIA PREVAILS almost universally.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the reach of all who desire to avail themselves of it? But says a dyspeptic, What is this remedy? to which we reply, This great alleviator of human suffering is found in the German Bitters, as the English language, this acknowledged fact is none other than

HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this wonderful medicine than can be learned from the experience of others? Try it yourself, and you will find it to be the assurance of the efficacy given by the proprietor, then abundant faith in it.

LET IT BE REMEMBERED

first of all, that Hoofland's German Bitters is not a rum beverage.

They are not alcoholic in any sense of the term. They are composed entirely of the pure juice of vital principles of roots, and extracts from which the most powerful and healthful of remedies are compounded.

It is, perhaps, a fact well known to you that during the five years last past, the members of Hart Post G. A. HOOFLAND'S TONIC acts with almost marvelous effect. It not only stimulates the flagging and languid energies, but invigorates and permanently strengthens its action upon the liver and stomach, thereby, perhaps less promptly than the Bitters, when the same quality is taken in none the less certain. Indigestion, biliousness, physical or nervous prostration, yield readily to its potent influence. It gives strength to weakness, restores vigor to the weary, and starts the restored invalid upon a new and glorious career. But Dr. Hoofland's beneficence to the human race are not confined to his celebrated

HOOFLAND'S PODOPHYLLIN PILLS a perfect substitute for mercury, without any of mercury's evil qualities.

These wonderful pills which are intended to act upon the liver, are mainly composed of Podophyllin, or the

VITAL PRINCIPLE OF MANDRAKE ROOT.

Now we desire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medicinal virtues of this health giving plant in a perfectly pure and highly concentrated form. Hence it is that two of the Podophyllin pills constitute a full dose, while anywhere six to eight or a handful of other preparations of the Mandrake are required. The Podophyllin

ACTS DIRECTLY ON THE LIVER stimulating its functions and causing it to make its biliary secretions in regular and proper quantities. The injurious results which invariably follow the use of mercury is entirely avoided by their use.

Possessing desirable qualities, the Podophyllin becomes invaluable as a

In the year 1801 the Hanoverian general von Ertz, a personal friend of William IX., Landgrave of Hesse-Cassel, was consulted by the latter respecting a suitable person for the situation of banker to the court. Von Ertz had observed Meyer Rothschild as the cleverest clerk of Othenheim's house, and proposed to introduce him to the landgrave as one of the best financiers he had ever met. On being summoned to the palace one afternoon, Rothschild found William and Von Ertz engaged at chess, the latter evidently getting the best of it. The Jew stood for a long time waiting patiently behind the landgrave's chair without a word having been spoken by any one, until at length William turning abruptly to Rothschild, said "Do you know anything of this game?" "A little, and if your highness will give me leave to suggest certain moves, I think you will win the game."

"Out with it then," replied the landgrave.

And by following the clerk's advice William won the game, which so pleased him that he at once promoted Rothschild to the office of court banker.

After this, the banker took care of William's money when the latter was obliged to fly from his throne, and returned it with such scrupulous exactness that William soon placed him in a way to get rich.

Mrs. Harriet Beecher Stowe is a spiritualist. In the last number of the Christian Union, in a paper on 'Owen's Debateable Land Between This World and the Next,' she declares her belief that Owen, Hare and others "have demonstrated the fact of the existence and manifestations of spiritual force."

Let your thoughts be fit and suitable for the subject. Every day have higher thoughts of God, lower thoughts of self, kinder of your brethren, and more hopeful thoughts of all around you.

A gentleman of Newcastle, Maine, desiring the services of a laboring man, started one morning recently to a rural district in the interior. On his way he met a highly respectable lady, not as young as she once was, and making inquiry of her finally asked the question direct:

"Can you tell me where I can find a man?"

No, I cannot," she replied, "for I have been looking these last twenty years for one myself."

The gentleman apprised her that such frankness elevated her in his estimation, and that he would aid her in the search to the best of his ability.

## 900,000 Acres Excellent Farming & Splendid MICHIGAN PINE LANDS

FOR SALE,

On which are One Thousand Millions of Pine timber, and Inexhaustible quantities of Maple, Beech, Elm, Ash, Hemlock, Oak, &c.

The grant of lands to the Grand Rapids and Indiana Railroad Co., to build their road from Ft. Wayne, Ind., to Traverse Bay and Mackinaw, Mich., comprising in its farming lands every variety of soil, from the rich clay loam, to the light sandy, and the stony soil of the Grand Rapids, north of the city of Grand Rapids, and contiguous to the great fruit belt on the eastern shores of Lake Michigan, now being rapidly developed by railroad and other enterprises.

The Pine Lands are situated on the Mackinac, Manistee, Pere Marquette, White Pine, Tamack, Flat and Rouge Rivers, and lying twenty miles on either side of the surveyed line of said road, and are in the heart of the Pine section, from which Chicago is so largely supplied.

Farming Lands are sold to actual settlers, on credit, one quarter down, balance in yearly payments, interest 7 per cent. Persons desirous of locations for farms will on application with tickets over the road, entitling them to return fares, in the event of purchasing any of the company's farming land.

## THE AMERICAN WASHER!

PRICE, \$5.50.  
The American Washer saves Money, Time, and Drudgery.

The Fatigue of Washing Day no longer dreaded, but Economy, Efficiency, and Clean Clothing sure.

In calling public attention to this little machine, a few of the invaluable qualities, not possessed by any other washing machine yet invented, are here enumerated.

It is the smallest, most compact, most portable, most simple in construction, most easily operated. A child ten years old, with a few hours practice, can thoroughly comprehend and effectually use it. There is no adjusting, no screws to annoy, no delay in adapting. It is always ready for use! It is a perfect little wonder! It is a miniature giant, doing more work and of a better quality, than the most elaborate and costly. One half of the labor is fully saved by its use, and the clothes will last one half longer than by the old plan of the rub board. It will wash the largest blanket. Three shirts at a time, washing thoroughly! In a word, the ablution of any fabric, from a quilt to a lace curtain or cambric handkerchief, are equally within the capacity of the Little Gem! It can be fastened to any tub and taken off at will.

No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its efficiency and utility are banished, and the doubter and detractor at once become fast friends of the machine.

We have testimonials without end, setting forth its numerous advantages over all others, and from hundreds who have thrown aside the unwieldy, useless machines, which have signally failed to accomplish the object promised in prominent and loud sounding advertisements.

It is as perfect for washing as a wringer is for wringing. The price another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.

All that is asked for this great labor saver, is a fair trial. We guarantee each machine to do its work perfectly. Sole agents for the United States.

THE IMPROVED AMERICAN  
Button-Hole, Overseaming,  
Complete Sewing Machine.

The first and only Button-hole and Sewing machine combined that has made its advent in this or any other country.

The following reasons are given why this is the best

Family Machine to Purchase

1. Because it will do everything that any machine can do, sewing from the finest to the coarsest material, hemming, felling, cording, braiding, binding, gathering and sewing on at the same time, ruffling, quilting, &c., better than any other machine.

2. Because the tensions are more easily adjusted than any other machine.

3. Because it can make a beautiful button hole, making as fine a pearl as by hand.

4. Because it will embroider over the edge, making a neat and beautiful border on any garment.

5. Because it will make a beautiful eyelid hole.

6. Because it can do overhand sewing, by which sheets, pillow cases, and the like are sewed over and over.

7. Because you can quickly raise or lower the foot to adapt it to thick or thin cloth.

8. Because you have a short deep button by which the thread is constantly drawn from the center, the tension is consequently even and does not break the thread.

9. Because the presser foot turns back; that the cloth can be easily removed after being sewed.

10. Because the best mechanics pronounce it the best finished, and made on the best principle of any machine manufactured.

11. Because it has a better shuttle than any other machine.

12. Because it runs easier and quieter than any other heavy machine.

13. Because it is two machines in one—a button hole working and sewing machine combined.

It is to last a lifetime, and therefore one is wanted that will do the most work, and do it the best, and this machine can do several kinds of sewing not done on any other machine, besides doing every kind that all others can do.

The American or Plain Sewing Machine

Is a beautiful family and light manufacturing machine, possessing all the superior qualities of the combined machine, except making button holes and overseaming. In all other respects the principal of construction is the same.

These Machines are Warranted.
